a deeper level. Women are different than men in this sense.

Why dirty talk is such an effective turn-on?

We all know how great it is for turning people on. Saying just the right things can take someone from not in the mood to dripping wet. But you need to know which dirty things to say to a girl will actually work.

You need to be descriptive. The reason dirty talk is so sexy is because it takes people to a very specific place in their mind. They picture the things you're talking about and the memories of what those things feel like are what gets their body riled up and ready to go. Tips for making your dirty talk even more powerful

These phrases may all seem perfectly useful, but only if you know how and when to use them. Here are some tips

for making the most out of dirty talking to your girl. [Read: [How to dirty talk in the bedroom](#) (<https://www.lovepanky.com/sensual-tease/fantasy/how-to-talk-dirty-in-bed>)]

#1 Say something really naughty in public. Nothing is sexier than a man getting really intimate and naughty in a public setting. Obviously, you'll want to be quiet about it and make sure nobody else can hear you. But if you do this right, it'll be a huge turn on for her. Just whisper what you want to say very low in her ear and watch her squirm.

#2 Text it to her. If you're not together, take the opportunity to text her something very dirty. Not only will you make her feel horny while away from you, it'll also increase the anticipation for a great time later.

This may also give you a window into some great sexting. There's not much better than getting really turned on with a good dirty texting conversation. [Read: [14 naughty effortlessly sext like a real pro](#) (<https://www.lovepanky.com/sensual-tease/seduction/sext-ing-ideas>)]

#3 Give her a slow, romantic kiss, and finish it by whispering in her ear. This is just extremely effective because of the parallels. A really deep, romantic kiss will already turn her on and then you say something very dirty when she's expecting something sweet.

The surprise and your words specifically will make her wet for you. You can take things right to the bedroom after doing this!

to a girl that work the best are always the things that'll spark the most interest to her.

If you know your girl loves when you go down on her, then focus on that. Talk about how much you love it and how much you wish you could go down on her right there. She'll start picturing this and will be horny in no time. [Read:

[What women want in bed but are too shy to ask for](https://www.lovepanky.com/sensual-tease/fantasy/what-women-want-in-bed-but-are-too-ashamed-to-ask)
(https://www.lovepanky.com/sensual-tease/fantasy/what-women-want-in-bed-but-are-too-ashamed-to-ask)]

#5 Only say what feels natural. Don't try to say a bunch of these things if they sound foreign and awkward coming out of your mouth. That'll basically just ruin the moment.

If you're new to this, then start slow. Start with phrases that are simple and that make sense. "I want you so bad," is a perfect place to start. You can also see how much your partner is reacting and continue down a path she's responding well to.
